

Graduate Research Management Science Enhancements Sign off Document

Client: University of Witwatersrand

Project: GRM Science Enhancements

Date: 02 September 2024

Deliverable Name: GRM Science Enhancements (Automatic Approval of Supervisors and Additional Proposal Statuses)

Details: Testing has been concluded on the GRM TRG environment for the automatic approval of an unconfirmed primary supervisor for a science student. Testing has been done also in not approving a primary supervisor who doesn't have primary supervisor id and a student who isn't in the faculty of science. The **school not requirement** status and **school approved** status works as expected on the Graduate Research Management Module. I hereby confirm that the above enhancements work as expected.
